

WANTED.

Wanted, men!
Not systems fit and wise,
Not faith with rigid eyes,
Not wealth in mountains piled,
Not power with graces smiled,
Not even the potent pen—
Wanted, men.

Wanted, deeds!
Not words of winning note,
Not thoughts from life remote,
Not fond religious airs,
Not sweetly languid prayers,
Not softly scented creeds—
Wanted, deeds.

Men and deeds!
They that can dare and do,
Not longing of the new,
Not prating of the old;
Good life and actions bold,
These the occasion needs—
Men and deeds.

VARIETY.

A popular spring novel for Republicans—“Put Yourself in His Place.”
The Bloch Ardens of this practical day have a wife at each end of the line.

Sunday-school Teacher—What is the fruit of the tree of knowledge?
Boston boy—Beans!

Singer—Jawkins, did you ever hear me sing “Within a Mile of Edinboro Town?”
Jawkins—No, nor within a mile of any other town.

The Southern question this year seems to be, how are we ever to get the Northern tourists down here so long as we can't get rid of the yellow fever?

His Duties—At the Church—
“Mamma, is that the usher?” “Yes, dear.”
“Does he show people where to sit, mamma?” “No, he shows people where not to sit.”

Gubbins, hearing it said that the camel was an animal which could work a week without drinking, remarked, “and I am an animal which can drink a week without working.”

He who would thrive
Must rise at five.
—Poor Richard.

He who has thriven
May sleep till seven.
—New Version.

Was Ever Thus—Rollo—Will you tell me, Jonas, why the honest grocer departs from precedent and puts the small apples on top of the barrel?
Jonas—Because, Rollo, the honest grocer has no large apples.

Care of Property—Young wife (at a ball)—You are improving wonderfully as a dancer. Don't you remember how you used to tear my dresses?
Young Husband—Yes; I was just buying ‘em then.

In Ecclesiastes ii, 8, Solomon says: “I got me men singers, and women singers, and musical instruments of all sorts; and, behold, all was vanity and vexation of spirit.”
From this it is evident that Solomon “came to grief” trying to run a national opera company.

Dear Woman's Artful Way—“Is Miss Mader a good poker player?” inquired Parkhurst. “Yes,” replied Giles, “but I don't like to play with her.”
“How's that?” “Well, she always plays for fun until she draws three of a kind or better and then she wants to play to see who will pay for the machine tickets.”

The average watch is composed of 175 different pieces, comprising upward of 2,400 separate and distinct operations in its manufacture. The balance has 18,000 beats or vibrations per hour, 12,960,000 in thirty days, 157,680,000 in one year; it travels 143,100 inches with each vibration, which is equal to 93 miles in twenty-four hours, 2,232 miles in thirty days, or 3,558 miles in one year.

Vassar Girl Can Howl—The Tribune recently defended the Vassar girls from the charge of yelling by saying that young ladies always scream. Whereupon a bright Vassar girl sends the following protest: “Who is it says the Vassar girls scream? We are as quiet as to make such a speech? We are the maids who talk when we can, but when there is need we can howl like a man.”

It is hoped that the prompt publication of this correction will avert any proceedings for libel.

President Harrison is said to be distantly related to both Jeff Davis and Amelie Rives Chandler. But there is a sense of fairness in the American people which will induce them to give Mr. Harrison a fair show, despite unfortunate accidents of consanguinity for which he is in no wise responsible.

DO FIGURES LIE?

An Example in Arithmetic That Puzzled Two Women and a Merchant.

Do figures lie? Let us see.
Two women had thirty chickens each, which they took to market. They agreed to divide equally the proceeds of their sale.

One sold her chickens two for \$1, getting for her thirty chickens \$15.
The other sold hers three for \$1, getting for her chickens \$10.
This made \$25 realized on the sixty chickens.

The merchant called to divide the money said:
“You sold your thirty chickens two for \$1, and you sold your thirty chickens three for \$1. That makes sixty chickens at the rate of five for \$2. Well, five into sixty goes twelve times—twice twelve is twenty-four. That makes \$24 your chickens brought.”

But as shown above the women actually had \$25 in their pockets. And yet the merchant's figures were right.

Do figures lie?—[Spence's Paper.
